Hiroaki Murayama

Curriculum Vitae

Date of Revision: 4 Aug 2023

hiromura319@gmail.com | hiroaki-murayama.github.io

Education

2019 – present **Medical Student**, Dept. of Medicine, School of Medicine, International University of Health and Welfare, Chiba, Japan

Career/Academic Appointments

2020 – present **Advisor, The National COVID-19 Cluster Taskforce, Ministry of Health, Labour and Welfare, Tokyo, Japan** (Prof. Hiroshi Nishiura)

- Performed ad-hoc analysis and research to provide risk assessment of coronavirus disease 2019 (COVID-19) epidemic and evaluate the impact of public health responses, including estimation and projection of the Alpha variant epidemic, evaluating vaccine effectiveness against death from population-level data, exploring the impact of healthcare burden on temporal case fatality risk, and more.

2021 – 2022 **Research Assistant, Graduate School of Social Sciences, Chiba University, Chiba, Japan** (Assist Prof. Shouto Yonekura)

- Proposed a novel Bayesian framework for estimating waning vaccine effectiveness from population-level surveillance data in the presence of multi-variant circulation, working with Dr. Akira Endo (in London School of Hygiene and Tropical Medicine as of 2022).

2021 – 2023 **Member, CoV-Navi** (https://covnavi.jp/)

- Reviewed the scientific evidence for science communication to the general public.

2022 – 2023 **Research Assistant, Graduate School of Public Policy, University of Tokyo, Japan** (Assoc. Prof. Taisuke Nakata)

Publications

Peer-Reviewed Original Research (†: equally contributed)

1. **Murayama H**, Pearson CAB, Abbott S, Miura F, Jung S, Fearon E, Funk S, & Endo A. Accumulation of immunity in heavy-tailed sexual contact networks shapes mpox outbreak sizes. *The Journal of Infectious Diseases*. 2023 Jul 4;jiad254.
2. Endo A, **Murayama H**, Abbott S, Ratnayake R, Pearson CAB, Edmunds WJ, Fearon E†, Funk S†. Heavy-tailed sexual contact networks and monkeypox epidemiology in the global outbreak, 2022. *Science*. 2022 Sep 25;0(0):eadd4507.
3. Ko Y, **Murayama H**, Yamasaki L, Kinoshita R, Suzuki M, Nishiura H. Age-Dependent Effects of COVID-19 Vaccine and of Healthcare Burden on COVID-19 Deaths, Tokyo, Japan. *Emerging Infectious Diseases*. 2022;28(9).
4. **Murayama H**†, Yamasaki L†, Hashizume M. The impact of temperature on the transmissibility and virulence of COVID-19 in Tokyo, Japan. *Scientific Reports*. 2021;11(1):24477.
5. **Murayama H**, Kayano T, Nishiura H. Estimating COVID-19 cases infected with the variant alpha (VOC 202012/01): an analysis of screening data in Tokyo, January-March 2021. *Theoretical Biology and Medical Modelling*. 2021;18(1):13.

Under Review (†: equally contributed)

1. **Murayama H**, Endo A, Yonekura S. Estimating waning vaccine effectiveness from population-level surveillance data in multi-variant epidemics. *medRxiv*. 2022 Jan 1;2022.07.14.22277647.

Report

1. Ko KY, **Murayama H**, Yamasaki L, Kinoshita R, Nishiura H, Suzuki M. Evaluating the Age-Specific Effectiveness of COVID-19 Vaccines Against Death from surveillance data in Tokyo. *National Institute of Infectious Diseases, Infectious Diseases Surveillance Center*. 2021 Dec. https://www.niid.go.jp/niid/ja/2019-ncov/2484-idsc/10873-covid19-65.html (Japanese only)

Conference

1. Jung S†, Miura F†, **Murayama H**, Lessler J, Endo A. Dynamic landscape of mpox importation risk driven by heavy-tailed sexual contact networks among men who have sex with men. *Ecology and Evolution of Infectious Diseases*. 2023 May. (Poster)
2. **Murayama H**. Impacts of vaccine, healthcare burden, and temperature on the transmissibility or virulence of COVID-19. *COVID-19 pandemic conference*. 2022 Sep. (Oral)
3. Ko KY, **Murayama H**, Yamasaki L, Kinoshita R, Suzuki M, Nishiura H. Evaluating the Age-Specific Effectiveness of COVID-19 Vaccines Against Death and the Impact of Healthcare Burden on Age-Specific Case Fatality Risk in Tokyo, Japan. *The 32th Annual Scientific Meeting of the Japan Epidemiological Association*. 2021 Dec. (Oral)

Skills and professional development

Technical Expertise

- Data-analysis and scripting languages: R, Stan; familiar with Julia.
- Statistical computing environments: Jupyter Lab (via Windows); familiar with RStudio,
- Other software: Microsoft Office, GitHub Desktop, Mendeley.
- Markup languages: LaTeX, Markdown; familiar with HTML, XML, CSS.
- Experience with Bayesian methods, maximum likelihood estimation, differential equations, stochastic process, network modelling approaches.
- Work on infectious disease epidemiology, mathematical modelling of infectious diseases, environmental epidemiology, COVID-19, mpox, temperature.

Language

- Japanese (native)
- English (advanced)

Professional Services

Reviewer for peer-reviewed journals

2023 – present Plos One (co-review with Dr. Akira Endo)

Teaching Experience

July 2023 Teaching Assistant, Introduction to Infectious Disease Epidemiology and Modelling, School of Tropical Medicine and Global Health, Nagasaki University, Japan

Membership

1. Japan Epidemiological Association
2. Japanese Society of Tropical Medicine
