

**Education**

---

2019 – present **Medical Student**, Dept. of Medicine, School of Medicine, International University of Health and Welfare, Chiba, Japan

**Career/Academic Appointments**

---

2020 – present **Advisor, The National COVID-19 Cluster Taskforce, Ministry of Health, Labour and Welfare, Tokyo, Japan** (Prof. Hiroshi Nishiura)

- Performed ad-hoc analysis and research to provide risk assessment of the coronavirus disease 2019 (COVID-19) epidemic and evaluate the impact of public health responses, including estimation and projection of the Alpha variant epidemic, evaluating vaccine effectiveness against death from population-level data, exploring the impact of healthcare burden on temporal case fatality risk, and more.

2022 – 2023 **Research Assistant, Graduate School of Public Policy, University of Tokyo, Japan** (Assoc. Prof. Taisuke Nakata)

2021 – 2023 **Member, CoV-Navi** (<https://covnavi.jp/>)

- Reviewed scientific evidence regarding vaccines against COVID-19 for science communication to the general public.

2021 – 2022 **Research Assistant, Graduate School of Social Sciences, Chiba University, Chiba, Japan** (Assist Prof. Shouto Yonekura)

- Proposed a novel Bayesian framework for estimating waning vaccine effectiveness from population-level surveillance data in the presence of multi-variant circulation, working with Dr. Akira Endo.

(Oral)

## **Skills and professional development**

---

### **Technical Expertise**

- Data-analysis and scripting languages: R, Stan; familiar with Julia.
- Statistical computing environments: Jupyter Lab (via Windows); familiar with RStudio,
- Other software: Microsoft Office, GitHub Desktop, Mendeley.
- Markup languages: LaTeX, Markdown; familiar with HTML, XML, CSS.
- Experience with Bayesian methods, maximum likelihood estimation, differential equations, stochastic process, network modelling approaches.
- Work on infectious disease epidemiology, mathematical modelling of infectious diseases, environmental epidemiology, COVID-19, mpox, sexually transmitted infections, sexual contact network, temperature.

### **Language**

- Japanese (native)
- English (advanced)

### **Professional Services**

#### **Reviewer for peer-reviewed journals**

2023 – present PLoS ONE (co-review with Dr. Akira Endo)

2023 – present The Journal of Infectious Diseases (co-review with Dr. Akira Endo)

### **Teaching Experience**

July 2023 Teaching Assistant, Introduction to Infectious Disease Epidemiology and Modelling, School of Tropical Medicine and Global Health, Nagasaki University, Japan

### **Membership**

---

1. Japan Epidemiological Association
2. Japanese Society of Tropical Medicine
