

Education

2027 (expected) Department of Medicine, School of Medicine, International University of Health and Welfare, Chiba, Japan (M.D., expected March 2027)

Appointments and Experience

- 2026–present** Academic Visitor, Saw Swee Hock School of Public Health, National University of Singapore, Singapore (Supervisor: Assistant Professor Akira Endo)
- Network modelling for sexual transmitted infections
- 2026** Clinical Electives Student, Division of Dermatology, National University Hospital, Singapore (Supervisor: Associate Professor Nisha Suyien Chandran)
- Completed a four-week clinical elective in dermatology.
 - Gained clinical exposure to outpatient consultations, inpatient care and dermatological procedures.
- 2020–2024** Advisor, National COVID-19 Cluster Task Force, Ministry of Health, Labour and Welfare, Tokyo, Japan (Supervisor: Professor Hiroshi Nishiura)
- Conducted ad-hoc analyses to support risk assessment of the COVID-19 epidemic and to evaluate the impact of public health responses.
 - Conducted analyses on Alpha-variant dynamics, vaccine effectiveness against death using population-level data, and the impact of healthcare burden on temporal case fatality risk (e.g. Murayama et al. Theoretical Biology and Medical Modelling. 2021; Ko et al. NIID. 2021; Ko et al. Emerging Infectious Diseases. 2022).
- 2022–2023** Research Assistant, Graduate School of Public Policy, The University of Tokyo, Tokyo, Japan (Supervisor: Associate Professor Taisuke Nakata)
- Collaborated with economists on research into COVID-19 response strategies.
- 2021–2023** Member, CoV-Navi (<https://covnavi.jp/>)
- Reviewed scientific evidence on COVID-19 vaccines for public-facing science communication.
- 2021–2022** Research Assistant, Graduate School of Social Sciences, Chiba University, Chiba, Japan (Supervisor: Assistant Professor Shouto Yonekura)
- Developed a novel Bayesian framework for estimating waning vaccine effectiveness from population-level surveillance data in the presence of multiple circulating variants, in collaboration with Dr Akira Endo (Murayama et al. Epidemics. 2023).

Selected Publications

1. [Murayama H](#)[†], Asakura TR[†], D Dickens BL, Boyle D, Foo JH, Jin S, Mukadi PK, Ejima K, Jung S-m, Nishi A, Prem K, Wakamba AM, Saila-Ngita D, Niyukuri D, Endo A. Role of community and sexual contacts as drivers of MPXV clade I. *Nature Health*. 2026 Apr 6. doi:10.1038/s44360-026-00080-7
2. [Murayama H](#), Endo A, Yonekura S. Estimation of waning vaccine effectiveness from population-level surveillance data in multi-variant epidemics. *Epidemics*. 2023;100726.
3. [Murayama H](#), Pearson CAB, Abbott S, Miura F, Jung S, Fearon E, Funk S, Endo A. Accumulation of immunity in heavy-tailed sexual contact networks shapes mpox outbreak sizes. *The Journal of Infectious Diseases*. 2023 Jul 4;jjad254.

Evaluating the age-specific effectiveness of COVID-19 vaccines against death from surveillance data in Tokyo. *Materials 3-2, 65th Advisory Board Meeting, Ministry of Health, Labour and Welfare on COVID-19 Countermeasures* (28 December 2021), 79-90. 28 Dec 2021. <https://www.mhlw.go.jp/content/10900000/000875165.pdf> (in Japanese).

Conference Presentation

1. Murayama H, Endo A. Transmission dynamics and risk assessment of mpox clade IIb and Ib within men who have sex with men. *Early Career Researcher Sandbox session, Infectious Disease Modelling conference*. 2024 Nov. Bangkok, Thailand. Oral presentation.

2. Murayama H. Impacts of vaccine, healthcare burden, and temperature on the transmissibility or virulence of COVID-19. *COVID-19 Pandemic Conference*. 2022 Sep. Nagoya, Japan. Oral presentation.

Skills and Professional Development

Technical Expertise

- Research areas: (i) infectious disease epidemiology and mathematical modelling of infectious diseases (COVID-19, mpox clade I and II, sexually transmitted infections, dengue, vaccine effectiveness); (ii) environmental epidemiology, focusing on interactions between infectious disease dynamics, temperature, and tropical cyclones.
- Data analysis and scripting languages: R, Julia, Stan.
- Statistical computing environments: JupyterLab (Windows), Docker; familiar with RStudio.
- Other software: Microsoft Office, GitHub, Zotero.
- Markup languages: LaTeX, Markdown; familiar with HTML, XML, and CSS.
- Experience with Bayesian methods, maximum likelihood estimation, differential equations, stochastic processes, branching processes, spatio-temporal modelling, and network modelling.

Language

- Japanese (native)
- English (advanced)

Professional Services

Co-reviewer for peer-reviewed journals:

PLoS Neglected Tropical Diseases (1), PLoS ONE (1), The Journal of Infectious Diseases (1).

Teaching Experience

July 2025	Teaching Assistant, Introduction to Infectious Disease Epidemiology and Modelling, School of Tropical Medicine and Global Health, Nagasaki University, Japan
July 2023	Teaching Assistant, Introduction to Infectious Disease Epidemiology and Modelling, School of Tropical Medicine and Global Health, Nagasaki University, Japan
